Objet: REACH - change of Lead Registration - phosphoric acid 231-633-2

To the Reach SIEF for orthophosphoric acid EINECS 231-633-2

This email is sent to all companies having purchased Letter of Access for this substance and to all members of the substance SIEF.

This is to inform you that the company FMC Foret has resigned from the role of REACH Lead Registrant for orthophosphoric acid EINECS 231-633-2 (dossier submitted 2010) . The Inorganic Phosphates Consortium continues to manage this dossier, including coordinating updating the submitted Registration dossier. The company Thermphos International, Member of the Inorganic Phosphates Consortium, has agreed to take over the role of Lead Registrant for this substance. The modification of Lead Registrant is already indicated in REACH-IT and is in the process of formalisation in the IUCLID dossier.

Yours

Mark Meesters, ReachCentrum, Inorganic Phosphates (IP) Consortium,
Acting on behalf of the IP Consortium Members
