Objet : Update of inorganic phosphates 2013 REACH Registration status

From: the Inorganic Phosphate REACH Consortium
To all members of all inorganic phosphate REACH SIEFs

Object: Update of inorganic phosphates 2013 REACH Registration status:

- **Revised list of substances and Lead Companies** [here](#) (NOTE: some substances will NOT be Registered in 2013, postponed until 2018)
- **Updated sameness specifications (SIPs)** [here](#)
- **Proposed tables of covered uses and applications** [here](#)
- **Summary of studies launched by the IP Consortium** [here](#)
- **SIEF Agreement Contract text for 2013 substances** [here](#)

The Inorganic Phosphates (IP) Consortium wrote to all inorganic phosphate SIEFs on 13th March 2011 and 6th December 2011. The second emailing included a list of substances we anticipated Registering for 2013 (>100 tonnes/year), with proposals for Lead Company and sameness specification (SIPs). We received a number of comments which have been taken into consideration.

This email communicates to you progress on Registration preparation.

You are asked to verify the following information, and send any comments to the IP Consortium ip@reachcentrum.eu by 15th July latest:

- Following assessment, **certain substances will NOT be Registered in 2013 but only in 2018** [*Calcium dihydrogenpyrophosphate, Dicalcium pyrophosphate, Magnesium bis(dihydrogenorthophosphate), Magnesium pyrophosphate, Pentapotassium pentasodium bis(triphosphate)*]. **If your company DOES need to register any of these substances by 2013 you should contact us immediately.**
- Please see the list of substances to be Registered in 2013 with **Lead Companies** below, in some cases modified [here](#)
- Updated **substance sameness specifications proposals** (SIPs) – this is available updated for consultation on the IP Consortium website [here](#)
- Proposed tables of covered uses and applications for each 2013 substance, including SU, PC, PROC, ERC, AC categories as appropriate. These are available for comment on the IP Consortium website [here](#)
- SIEF Agreement Contract text. Electronic signature of this contract will be necessary for Letter of Access purchase. The text of this contract is available for consultation on the IP Consortium website [here](#)
- Summary list of studies which the IP Consortium is launching, because identified as necessary for Registration by the data gap assessment. This follows the requests made to all SIEF companies to make known any existing information. This list is attached to this email.

No response to this email by 30th June latest will be taken as agreement to all the above elements as communicated. In particular, please note that uses and applications communicated after that date may not be covered in the Registration dossier.

On behalf of the IP Consortium (Inorganic Phosphates) Members:

Mark Meesters, Consortium Secretariat,
